L. T. Cooper's theory that the American stomach has grown weak and is responsible for most sickness is receiving the strongest sort of endorsement from a surprising number of New Yorkers.

Among many people who have recently become convinced that Cooper is correct and his medicine all he cialins, is Mrs. Eleanor Harris, of 226 Rodney street, Brooklyn.

Thursday afternoon Mrs. Harris called at the store where Cooper is meeting the public and when interviewed said: "I am only too willing to tell what a remarkable experience I have had with Cooper's New Discovery, and what a wonderful medicine I know it to be.

"I have had rheumatism for sixteen years and took so much medicine and rying to get rid of it that for the past eight years my stomach has been in a fearful condition, as my digestion was almost ruined. For ten years I consulted one physician after another.

The medicine again. I started the treatment six weeks ago. The first effect it had was to give me a better appetite than I have had for ten years. Then my food began to digest and no longer distressed me for hours after eating. At the end of the third week I notified that I was not suffered and stoffeed that I was not suffered and stoffeed that I was not suffered and any rheumatism. For the past week I feel as though I had been made over entirely, as I have no pains or aches and eat three hearty means a day, with no indigestion whatever.

"My two nicces and my sister have had stomach trouble. When they saw what the medicine was doing for me they all tried it. It has helped them just as it did me, and they are delighted with their improvement. One of them told me that it was worth more than its weight in gold to her. This sounds almost impossible, but every word of it is true."
